

SPECIFICATION

Builder - Benetti

Built - 2018

Length - 38,10 M

Beam - 8,45 M

Draft - 2,08 M

Guests - 11 In 5 Cabins

Cruising Speed - 17.5 Kn

Hull - Grp

Gross Tonnage - 347

Engines - 2 X Mtu 16V2000M96L

Engine H - P. 1.729; Stbd. 1.728

Generators - 2 X Kohler 80EFOZDJ

Generator H - F. 2.699; B. 2.709

ASKING PRICE: € 16,950,000 (VAT PAID)

INTERIOR AND EXTERIOR

The sporty, flowing exterior lines are designed by **Stefano Righini**, while the interior decor by renowned UK-based design firm **RWD** was enriched during construction with contributions from both the owner's and the shipyard's team, working in close collaboration.

There are three possible configurations for Fast 125' models, Air, Land and Sea, and "Charade" is fitted out with the Air option, the more contemporary of the three, featuring a modern design with clean, simple lines embellished by polished metal accents. In fact, steel is used for the frames of both the numerous works of art on board, chosen and supplied by the owner, and for the televisions and bedheads. The carpet, which is of a different colour in each setting, has a circle leitmotif, like the decorations on the glass surfaces, balustrades and shower doors. All the ceilings are clad in majilite and leather.

There was a special focus during the design process on lighting, with extensive use of innovative thin light panels integrated into the décor of the interiors, while outdoors the lights are all RGB, including the underwater lights and yacht name lighting, and can be changed to any colour in the spectrum in perfect synchrony.

CABINS AND LIVING AREAS

The main deck are the living space with dining area and the roomy kitchen, from which the crew has access to their own cabins on the Lower Deck or the pantry on the Upper Deck using special stairways. This solution means that excellent service can be provided at all times, without ever encroaching on the privacy of the guests on board.

Forward on the Main Deck is the **full-beam owner's cabin**. Flooded with natural light that pours in through huge glazed surfaces on both sides, it is appointed with a master his and hers bathroom decorated with elegant onyx and "larch" marble.

The four guest cabins are located on the Lower Deck: two symmetrically-positioned VIP cabins with double beds and bathrooms decorated with varieties of white marble, and two guest cabins with sliding and one with pullman bed.

To reach the Upper Deck, guests can use a **steel and glass aerial stairway specially designed by RWD** and customized with backlit stone step tops. Here there is a more informal living area with a **plexiglass grand piano**, a **gaming table and a sofa area with television**, representing the ideal space for some rest and relaxation on board. Outside, there is a spacious area for dining and relaxing, furnished with teak and steel drop-leaf tables that can be found in all the outdoor spaces.

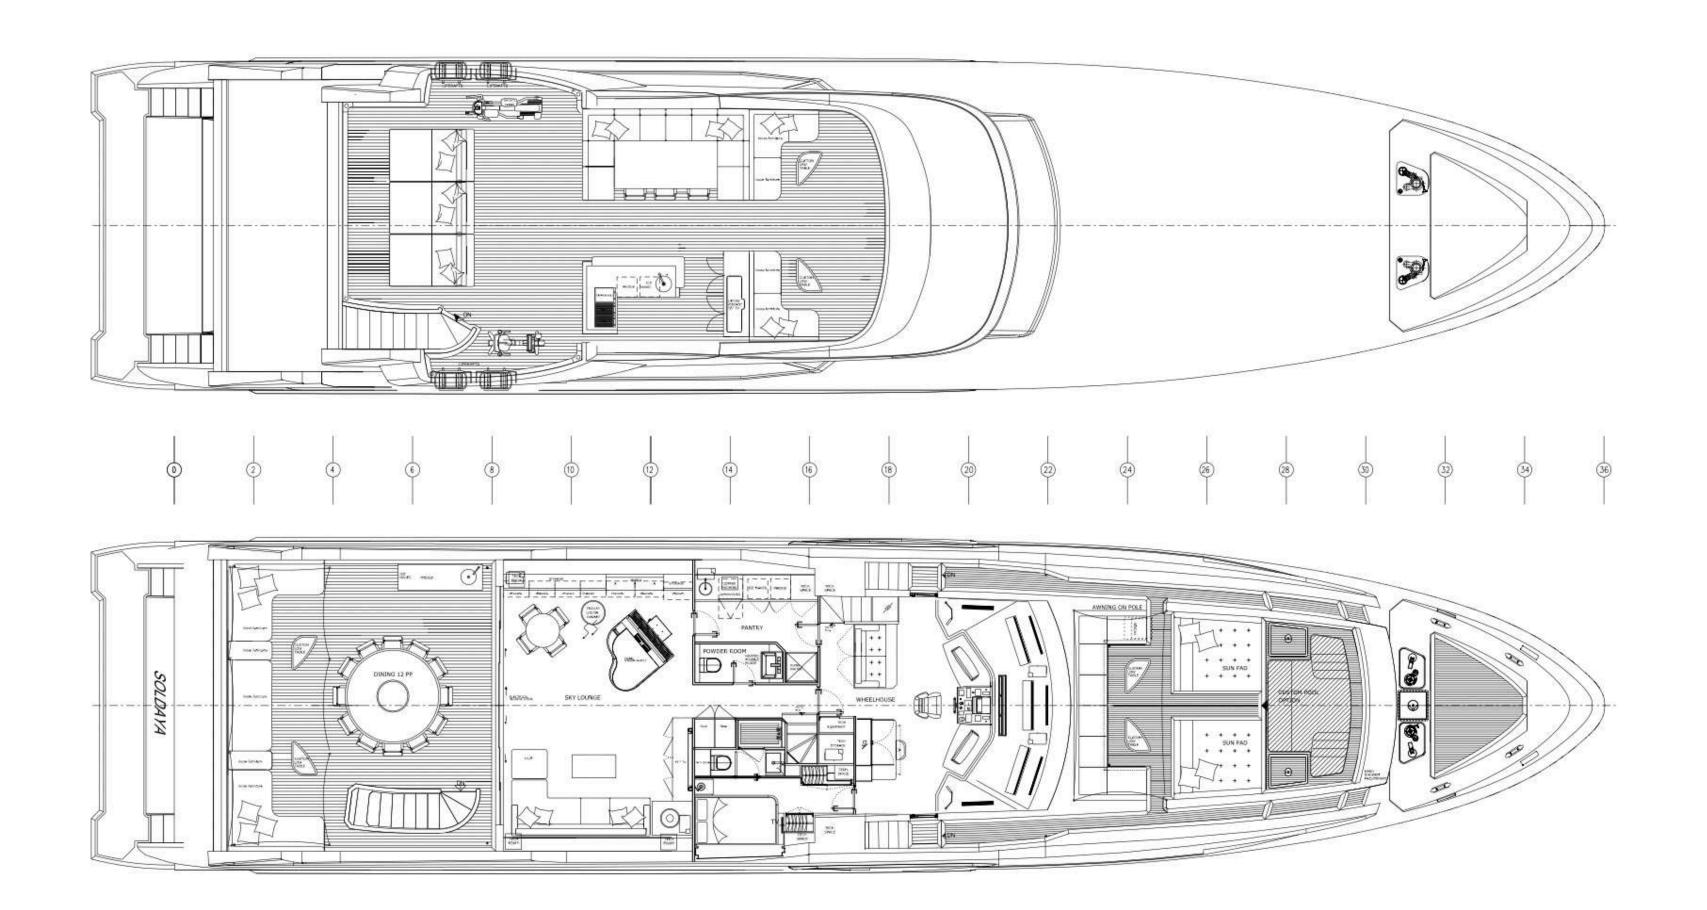

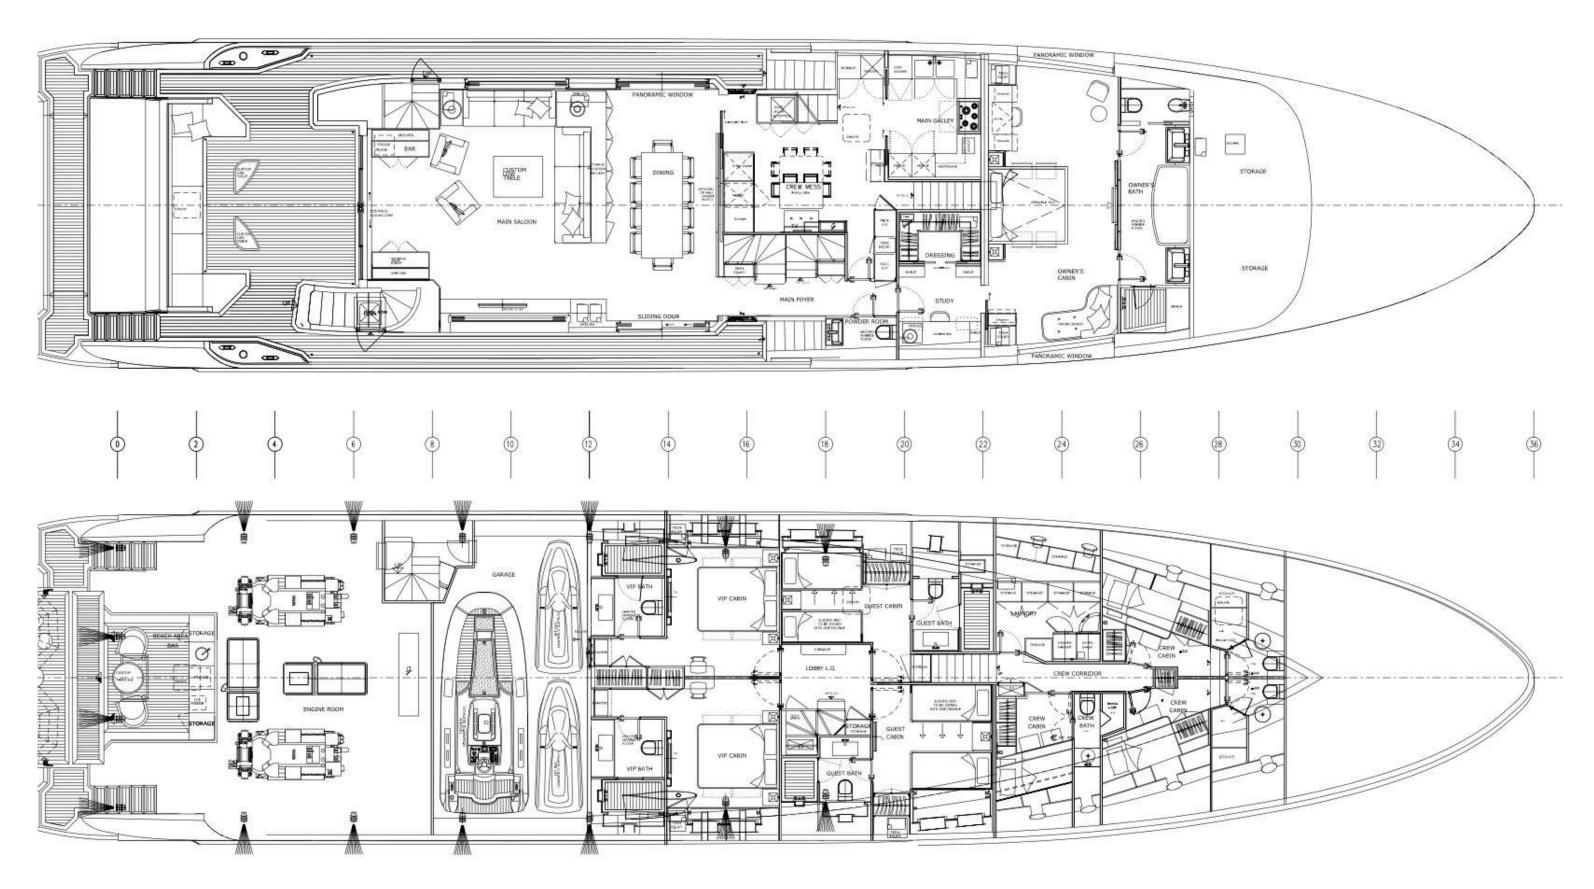

Lists of more significant repair and maintenance works completed since February 2023

Istanbul, Turkey, 2023

General

- Annual Flag and Class Surveys completed
- 5 years RINA survey completed

LSA & FFE

- Annual service of Fire Extinguisher's
- Annual service of all Life jackets
- Annual service of BA Fire fighting equipment
- Annual service of x 4 Life rafts and hydrostats
- Annual service of the FM200 system.
- New pyrotechnics in 2022
- Full Medical kit update through YMS.
- New 2x Life Boyes
- New EPIRB and hydrostat realise

Bridge Equipment & Comms

- New GPS
- New autopilot
- New FLIR Camera and control unit
- New Weather station sensor
- ECDIS PC Repair (All updates and maintenance completed)
- 3d NavNet Furuno Chart Updater installed
- New 7x Hytera UHF radios

Exterior Works completed

- International Ultra 300 anti-fouling applied
- Propspeed Applied to Propellors, and bow thruster
